

Instructions for Authors

The instructions below are specifically directed at authors that wish to submit a manuscript to *Journal of Structural Engineering (JoSE)*. For general information, please visit our website.

Journal of Structural Engineering considers all manuscripts on the strict condition that they have been submitted only to *Journal of Structural Engineering* that they have not been published already, nor are they under consideration for publication or in press elsewhere. Authors who fail to adhere to this condition will be charged with all costs which *Journal of Structural Engineering* incurs and their papers will not be published.

Contributions to *Journal of Structural Engineering* must be original research and will be subjected to review by referees at the discretion of the Editorial Board. Short contributions or based on the recommendations of the reviewer(s) manuscripts can also be considered as Technical Note or as a Review Paper.

Manuscript preparation

General guidelines

- Papers are accepted only in English. British English spelling and punctuation is preferred.
- Manuscripts should be compiled in the following order: title page; abstract; keywords; main text; acknowledgments; appendixes (as appropriate); references; table(s) with caption(s) (on individual pages); figures, figure caption(s) (as a list).
- Abstracts of 200 words are required for all papers submitted.
- Each paper should have five to eight keywords.
- Section headings should be concise.
- All the authors of a paper should include their full names, affiliations, postal addresses, telephone and fax numbers and email addresses on the cover page of the manuscript. One author should be identified as the Corresponding Author.
- For all manuscripts non-discriminatory language is mandatory.
- Authors must adhere to SI units. Units are not italicised.
- When using a word which is or is asserted to be a proprietary term or trade mark, authors must use the symbol ® or TM.

Format and style guidelines

Manuscripts must be in English and should be printed preferably with Laser Jet on A4 size white paper with double-spacing using Times New Roman Font size 12 and margins of 2.5 cm on all sides. One set of hard copy must be sent by post along with the copyright transfer and declaration form duly filled in and signed by all the authors. In addition, authors should submit manuscripts by email or on CD as Microsoft Word XP or 2003 format documents. The figures, illustrations, images, photographs, etc will be of highest quality reproduction images in either jpeg or tiff or gif format and can be embedded in the text/manuscript itself if the manuscript file size is manageable to send as an attachment. Uploading high-resolution images may slow down the submission of your manuscript; therefore, authors may submit these files as separate attachments clearly explaining the sequence and identification of the paper by title and authors in the main body of the email.

Abstracts and Organization

Each article should be prefaced by a brief (about 200 words) abstract. Text should be organized clearly and headings and subheadings should be indicated. All mathematical symbols and Greek letters must be identified clearly. Subscripts and superscripts should be set off clearly and a zero should precede all decimal points. Principal equations should be displayed on separate lines and the following sequence of parentheses should be used :)}]. Equation numbers should be given in parentheses at the right-hand margin.

Tables and Figures

Tables may be embedded in the text document, but should be included at the end. A short descriptive title should appear above each table with a clear legend and any footnotes suitably identified below. All units must be included.

- It is in the author's interest to provide the highest quality figure format possible. Please be sure that all imported scanned material is scanned at the appropriate resolution: 1200 dpi for line art and 600 dpi for grayscale.
- Figures must be provided after the tables in the text/manuscript.
- All figures must be numbered in the order in which they appear in the paper (e.g. Fig. 1, Fig. 2). In multi-part figures, each part should be labelled (e.g. Fig. 1(a), Fig. 1(b)).
- Figure captions must be saved separately, as part of the file containing the complete text of the paper, and numbered correspondingly.

Illustrations

Digital files are recommended for highest quality reproduction and should follow these guidelines:

- 300 dpi or higher resolution
- Pre-sized to fit on an *single column JoSE* page
- All units must be included. Illustrations should be labeled, taking into account necessary size requirement

Color illustrations will be produced for publication as black and white or grayscale.

Style & Format for References and Citations

Authors are fully responsible for the accuracy of their references. All references must include

- Author/editor last name plus initials (for six or fewer authors; if there are more than six authors, use "et al." after the sixth) or authoring agency
- Year of publication
- Full title of article or chapter (lower case)
- Title of journal (abbreviated according to standard engineering journal) or book/proceedings in title case
- City/state/country of publication and name of publisher
- Volume and inclusive page numbers
- DOI number, if available.

If you are uncertain what to include, please include all information. To refer to an item in the list of references from the text, an author-date method should be used. That is, use the surname of the author (without suffixes) and the year of the publication in the text at appropriate points.

Example: Researchers have indicated that more is expected of students in higher education (Hudson, 2001) and secondary education (Taylor & Hornung, 2002).

One author

Issac (2001) indicated in his research.

In a recent study, research indicates (Isaac, 2001)

Two or more authors

When a work has two authors, always cite both names every time the reference occurs. For works with three, four, or five authors, cite all authors the first time the reference occurs. In subsequent citations, include only the last name of the first author followed by et al.

When a work has no authors

Cite in text the first few words of what appears first for the entry on the list (usually the title) and the year.

Specific parts of a source

(Yount & Molitor, 1982, p. 19)

(Cooper, 1983, chap. 4)

Works with no author

("New Student Center," 2002)

Citation of a Work Discussed in a Secondary Source

To cite secondary sources, refer to both sources in the text, but include in the References list only the source that you actually used. For example, suppose you read Fielder (2008) and would like to paraphrase the following sentence within that article: Braun (2008) defined bat speed as "the ability to catch up to a baseball with a moving bat" (p. 11). In this case, your in-text citation would be "(Braun, 2008, as cited in Fielder, 2008)." Fielder (2008) would be fully referenced within the list of References.

Personal Communications

Personal communications may be things such as email messages, interviews, speeches, and telephone conversations. Because the information is not retrievable they should not appear in the reference list. They should look as follows: Example: J. Burnitz (personal communication, September 20, 2000) indicated that **or** In a recent interview (J. Burnitz, personal communication, September 20, 2000) I learned that

Reproduction of copyright material

Contributors are required to secure permission for the reproduction of any figure, table or extensive extract (more than fifty words) from the text of a source that is copyrighted or owned by a party other than JoSE or the contributor. This applies to direct reproduction as well as 'derivative reproduction', where the contributor has created a new figure or table that derives substantially from a copyrighted source. Authors are themselves responsible for the payment of any permission fees required by the copyright owner. Copies of permission letters should be sent with the manuscript *upon submission* to the Editor(s).

Manuscript submission

All submissions must be made by post with one hard copy of the full manuscript containing text, figures, tables, illustrations, etc. and duly filled and signed by all the authors the copyright transfer agreement and declaration and soft copy by email or on CD. Manuscripts received only by email or on CD alone without the hardcopy will NOT be considered.

Copyright and authors' rights

It is a condition of publication that authors assign copyright or license the publication rights in their articles, including abstracts, to JoSE. This enables us to ensure full copyright protection and to disseminate the article, and of course the Journal, to the widest possible readership in print and electronic formats as appropriate. Authors are themselves responsible for obtaining permission to reproduce copyright material from other sources.

Reprints

The corresponding author of the article published in JoSE would receive the corresponding issue of the Journal at free of cost and also the pdf version of the paper published in the Journal as reprint.

Reprints of articles published in the Journal and back volume issues can be purchased through Circulation manager, JoSE. If you have any queries, please contact jose@sercm.org or jose@sercm.csir.res.in or jose_cm@sercm.org or jose_cm@sercm.csir.res.in

Page charges

There are no page charges to individuals or institutions.

COPYRIGHT TRANSFER AGREEMENT (CTA) & DECLARATION

Date:

The copyright, title, interest, and all rights, including subsidiary and/or derivative rights, in all languages in the work entitled:

by: _____

is hereby assigned and transferred to the ***Journal of Structural Engineering*** (hereinafter JoSE) effective if and when the work is accepted for publication. Furthermore, this assignment and transfer applies to all other publications or reproductions by JoSE or its licensees, in which the above work may be reproduced subsequent to its appearance in:

Journal of Structural Engineering (JoSE)

JoSE reserves the right to edit this work. However, the author and/or copyright holder reserves the following rights:

1. All proprietary rights (such as patent rights) other than copyright.
2. The right to make oral presentation of the same material in any form.
3. The right to grant or refuse permission to third parties to republish all or part of the work or translations thereof. Such third parties must obtain JoSE's written permission as well.
4. The right to use all or part of this work in future works of author in author's capacity as either author or editor, without charge, provided JoSE is properly credited as the source.

The author and/or copyright holder affirms that the work does not contain material the publication of which would violate any copyright, trademark, intellectual property rights or other personal or proprietary rights of any private person or entity or governmental or quasi-governmental entity. [*Therefore, the author must carefully verify sources of data other than those originated by the author.*] In addition, the authors declare that the paper is submitted only to *Journal of Structural Engineering* and that they have not been published already, nor are they under consideration for publication or in press elsewhere.

All Authors

Signatures of all authors or copyright holders required	Print name	Date

This document, fully executed, must be received by JoSE before the manuscript can be accepted for publication. If the manuscript is not published by JoSE, this copyright transfer& declaration will not take effect.
