

## TECHNICAL REPORTS

1. Anandavalli, N., et.al, “Verification of the code developed for Internal Blast Loading Module”, Project No. OLP08841, Report No. 11, November 2003, SERC, Chennai.
2. Anandavalli, N., et.al, “Improvement of post-processor for OSTA – plotting of stress contours for triangular elements”, Project No. OLP 08841, Report No. 13, November 2003, SERC, Chennai.
3. Anandavalli, N., et.al, “Modelling of Internal Blast Loading and Development of a module for OSTA”, Project No. OLP08841, Report No. 12, November 2003, SERC, Chennai.
4. Annadurai, A., et.al, “Analytical studies on wind induced fatigue in the joints of lattice towers”, SERC Research Report No. MLP 09841 / R-05, May 2003.
5. Annadurai, A., et.al, “Wind turbulence characteristics and spatial correlation on top of a building roof, SERC Research Report No. MLP 09841/R-07, October 2003.
6. Anoop, M. B., et.al, ‘Stochastic Modelling of Seismic Excitations: Part II – Studies on Effect of Local Site Conditions on Seismic Ground Motion’, SERC Project Report No. SS-OLP09441-RR-2003-3, November 2003.
7. Arul Jayachandran S., et.al., “Benchmarking of general purpose FE codes with respect to advanced analysis of steel frames’, Project Report No. OLP 10041/6-September 2003
8. Avinash, S., et.al., “Control of Storey Drift under Seismic Loading in Soft-storey Buildings”, SERC Research Report No.MLP 9641/10, May 2003
9. Balaji Rao, K., et.al., ‘Fragility analysis of reinforced concrete framed structures subjected to seismic excitations’, SERC Project Report No. SS-OLP09441-RR-2003-1, May 2003.
10. Balaji Rao, K., et.al, ‘A Stochastic Model for Regional Seismic Risk Assessment’, SERC Project Report No. SS-OLP09441-RR-2003-2, November 2003.
11. Bhaskar, S., et.al, “Cumulative damage function model for corrosion rate prediction”, SST-MLP91-RR-06, 2003.
12. Dattatreya, J. K., et.al., “Application of Wave Propagation Techniques for Assessment of early Age Strength and Stiffening of Cementitious Materials-State of the art Report”, Research Report, RR/OLP10441/1-May2003

13. Dhiman Basu., et.al., "Effect of Asymmetry and In-plane Floor Diaphragm Flexibility on Performance Evaluation of Buildings by Push-over Analysis", SERC Research Report No.MLP 9641/13, November 2003
14. Dhiman Basu., et.al., "Concept of Floor Isolation in Reducing Seismic Demand: Part-1 Analytical Study" SERC Research Report No.MLP 9641/12, November 2003
15. Dhiman Basu., et.al., "Dynamically Separable Buildings - Concepts and Illustrations", SERC Research Report No.MLP 9641/05, May 2003
16. Dhiman Basu., et.al., "Dynamics of a Class of Horizontal Setback Buildings with Flexible Floor Diaphragm", SERC Research Report No.MLP 9641/06, May 2003
17. Gandhi P., et.al., "Fatigue crack growth studies on part-through circumferentially cracked pipes using beach mark loading", Report No.7, MLP 08941, November 2003.
18. Gomathinayagam, S., et.al, "Probability distribution of wind speed data for fatigue life estimation", SERC Research Report No. MLP 09841 / R-02, March 2003.
19. Gomathinayagam, S., et.al, "Mean and fluctuating drag of the traffic signs from full-scale measurements", SERC Research Report No. MLP 09841 / R-06, October 2003.
20. Harikrishna, P., et.al,"Evaluation of wind induced fatigue loading on a steel lamp mast", SERC Research Report No. MLP 09841 / R-04, April 2003.
21. Kesavan, K., et.al., "Development of Techniques for Embedding EFPI Fiber Optic Sensors in Concrete", Research Report No. EML-RR-2004-1, SERC, March 2004
22. Krishnamoorthy, T.S., et.al, "Investigations on the behaviour of fly ash based high performance reinforced concrete beams under flexure", SERC Report No. CCL-OLP-09041-RR-2003-1, August 2003
23. Krishnamoorthy, T.S., et.al., " Investigation in the bond Characteristics of High Performance Concrete" SERC report No.: CCL – OLP 09041-RR-2003-2, November - 2003
24. Lakshmanan, N., et.al, "Correlations of pressure fluctuations on a tall building model with square section in plan", SERC Research Report, MLP 09741, April 2003.
25. Lakshmanan, N., et.al, "A Methodology for Evaluation of Interference Factor for Pressures on a Cooling Tower", SERC Research Report, MLP 09741, October 2003.
26. Lakshmanan, N., et.al, "Flow visualization studies on a 1:1200 scaled low-rise industrial building", OLP 10541, March 2004.
27. Lakshmanan, N., et.al., 'Finite element analysis of superstructure for Earthquake Engineering Laboratory', SERC Research Report MLP 10341/3, May 2003

28. Lakshmanan, N., et.al., 'Design of superstructure for Earthquake Engineering Laboratory', SERC Research Report MLP 10341/4, May 2003
29. Neelamegam, M., et.al., "Early Age Strength Characteristics of Self Levelling Cementitious Mixtures, RR/OLP10441/2-May 2003
30. Neelamegam, M., et.al, "Effect of Accelerated Curing on Compressive Strength of Fly Ash Based Mortar Mixtures " Internal Technical Report No. RR/OLP 10441/3-2003, October 2003
31. Neelamegam, M., et.al., "Studies on Pulse Velocity and Pulse Energy Characteristics of Mortar Mixtures with Different W/C Ratios at Early Ages" Internal Technical Report No. RR/OLP 10441/4-2003, October 2003
32. Palani, G.S., et.al., "MVCCI technique for cracked plates subjected to tensile-bending and tensile-shear loads", CSD-MLP91-RR-07, 2003.
33. Palani, G.S., et.al., "State-of-the art review on fatigue crack growth and fracture analysis", ARDB-SP-TR-03-1196-01, 2003.
34. Pandian N., et.al., ' A comparison of proposed limit state compressive strength of the planned BIS structural wide flange sections with the existing sections', Project Report No. OLP 10041/5-August 2003
35. Pandian N., et.al., ' Manual for user friendly software for limit state design/capacity analysis of hot rolled steel sections proposed by BIS for compression members', Project Report No. OLP 10041/7-March 2004.
36. Prasad Rao. N., et.al., " Report on Nonlinear Analysis of Tower Panel Braced with Cold Formed Sections"., SERC Research Report No. MLP 093 41/ 4., April. 2003.
37. Prasad Rao. N., et.al., " Report on Experimental studies on multiple bolted lap joint in cold formed sections.", SERC Research Report No. MLP 093 41/ 6., Oct., 2003.
38. Prem Navin D., et.al., "Instability analysis of circumferentially through-wall cracked pipes using analytical flaw assessment methods" Report No.10, MLP 08941, March 2004.
39. Prem Navin D., et.al., "Mechanical properties of SA333 Gr.6, SA316 Type 304 LN and modified 9Cr1Mo steels", Report No.9, MLP 08941, March 2004.
40. Prem Navin D., et.al., "Determination of JR curve for through-wall circumferentially cracked carbon steel pipes under monotonic loading", Report No.5, MLP 08941, November 2003.

41. Rajamane, N. P., et.al, "A state of the art report on fly ash based aggregates and their applications", MLP10641/RR-1/2003, SERC, April 2003
42. Rajasankar, J., et.al., "Review of pit growth models and studies on pit growth life in metallic structural components", CSD-MLP91-03-02, 2003.
43. Rajasankar, J., et.al, "Damage Tolerant Evaluation of Wing Bottom Skin Panel of SARAS", CSD-CLP002-CR-01, 2003.
44. Rama Chandra Murthy A., et.al., "Studies on remaining life prediction under variable amplitude loading", CSD-MLP91-03-01, 2003.
45. Rama Mohan Rao, A., et.al., "Active control of high rise structures subjected to earthquake excitations using an instantaneous optimal control algorithm", Research Report No. OLP-09241/2, November, 2003.
46. Rama Raju, K., et.al., "Studies on Dynamic Response of Viscous Fluid Dampers and ANN Modeling of Controllable Fluid Dampers for Semi-active Control", SERC Research Report No.MLP 9641/14, November 2003
47. Rama Raju, K., et.al., "Optimum Design of Frames with Passive and Active Control Devices: Part II - Formulations and Implementation of Active and Passive Control Algorithms for Better Performance of Engineering Structures", SERC Research Report No.MLP 9641/09, May 2003
48. Ramanjaneyulu, K., et.al, "Model updating techniques for condition assessment of bridges-An overview", SERC Research Report No. RCS-MLP10741-RR-2003-3, November 2003.
49. Rokade. R.P., et.al., " Report on GUI Based computer program for sectional properties of Cold Formed Steel Sections.", SERC Research Report No. MLP 093 41/ 5., April. 2003.
50. Rokade. R.P., et.al., " Report on Experimental Investigation on K-Bracing panel using cold-formed lipped angle section as a compression bracing.", SERC Research Report No. MLP 093 41/ 7., Oct., 2003.
51. Sabitha, D.,et.al., "A technical review on ecological aspects of fly ash and its use in concrete", SERC Internal Report No. MLP10641/RR-3/2003/3, November 2003
52. Sanjeev Saxena ., et.al., "On the accuracy of ductile fracture assessment of through-wall cracked pipes", Report No.8, MLP 08941, January 2004.

53. Sanjeev Saxena ., et.al., “Prediction of crack initiation load in circumferentially through-wall cracked elbows under in-plane bending”, Report No.11, MLP 08941, March 2004.
54. Saptarshi Sasmal, et.al, “Condition Assessment of bridges using fuzzy logic – A state of the art”, SERC Research Report No. RCS-MLP10741-RR-2003-1, November 2003.
55. Sathish Kumar, K., et.al., “Design of Visco-elastic Damper for Frames subjected to Seismic Loads', SERC Research Report No.MLP 9641/11, November 2003
56. Sathish Kumar, K., et.al., “Design of Damper Scheme for Moment Resisting Frames”, SERC Research Report No.MLP 9641/08, May 2003
57. Selvi Rajan, S., et.al., “Flow visualization on low-rise buildings using boundary layer wind tunnel” , OLP 10541, November 2003.
58. Sivasubramanian, K., et.al., ”Feasibility study of predictive control algorithm for high rise structures subjected to earthquake excitations”, Research Report No. OLP-09241/3, November, 2003.
59. Sreekala, R., et.al., “A Critical Review of SMA Based Control Devices”, SERC Research Report No.MLP 9641/07, May 2003
60. Sreekala, R., et.al., “Ductility Improvement Using NR-Latex Modified Beams”, SERC Research Report No.MLP 9641/15, November 2003
61. Sreenath, H.G., et.al, “Design, Casting and Experimental Studies on Shear -High Strength Concrete Pretensioned I-Girder designed as per ACI Code” , SERC Research Report OLP/09541/2, November 2003
62. Srinivas, V., et.al, “Condition assessment of bridges based on dynamic signatures-A state of the art”, SERC Research Report No. RCS-MLP10741-RR-2003-2, November 2003.
63. Thandavamoorthy, T.S., et.al., “Ground and Structural vibrations due to driving of 48 mm concrete pile 3 and pile 4”, Project Report No. 16, Project No. OLP 08841, SERC, Chennai, January 2004.
64. Thandavamoorthy, T.S., et.al., “Ground and Structural vibrations due to driving of 48 mm concrete pile 1 and pile 2”, Project Report No. 14, Project No. OLP 08841, SERC, Chennai, November 2003.

65. Thandavamoorthy, T.S., et.al., “Ground and Structural vibrations due to driving of 28 mm concrete pile 1 and pile 2”, Project Report No. 17, Project No. OLP 08841, SERC, Chennai, January 2004.
66. Thandavamoorthy, T.S., et.al., “Ground and Structural vibrations due to driving of 28 mm concrete pile 3 and pile 4”, Project Report No. 18, Project No. OLP 08841, SERC, Chennai, January 2004.
67. Thandavamoorthy, T.S., et.al., “Piling in fine and medium sand – A case study”, Project Report No. 15, Project No. OLP 08841, SERC, Chennai, November 2003.
68. Vaidyanathan, C.V., et.al., 'Effects of seismic pounding on adjacent structures' SERC Research Report No. SE-RR-2003(2), August 2003.
69. Venu Kumar D., et.al., “Determination of JR curve for through-wall circumferentially cracked carbon steel pipes under cyclic loading”, Report No.6, MLP 08941, November 2003.
