

TECHNICAL REPORTS

1. Balasubramanian, K., Krishnamoorthy, T. S., Bharatkumar, B.H., Lakshmanan, N., and Gopalakrishnan, S., "Use of FRP in the Retrofitting of RC Columns – A State-of-the-Report", SERC Report No. OLP 01141-RR-2004-5, October, 2004
2. Pandian, N., Seetharaman, S., and Arul Jayachandran S., "An Integrated Limit State Design Program for Plane Trusses by Draft IS: 800 Code for Structural Steel Design", Project Report No. OLP 10041/9, August 2004.
3. Arul Jayachandran S., Seetharaman, S. and. Pandian N., "Studies on the behaviour of steel frames with nonlinear connections using the SERC beam element", Project Report No. OLP 10041/10, September 2004.
4. N. Pandian, S. Seetharaman, S. Arul Jayachandran , V. Marimuthu, "A manual for user-friendly software for the limit state design/capacity analysis of hot rolled steel sections proposed by BIS for bending members", SERC Research Report No: OLP-10041/10, March-2005
5. Arul Jayachandran S., S. Seetharaman, N. Pandian, V. Marimuthu, "Experimental investigations on flexible steel beam to column connections", SERC Report No: OLP-10041/11, March-2005
6. Raghunathan.M.D, Mohan S.J., Prasad Rao. N.and Rokade. R.P., " Report on Comparative study on cold-formed lipped channel sections and hot rolled angle sections in transmission line towers.", SERC Research Report No. MLP 093 41/ 8., Apr., 2004.
7. Rokade. R.P., Mohan S.J.,Raghunathan.M.D. and Prasad Rao. N., " Report on Studies on bracing connections of cold-formed members.", SERC Research Report No. MLP 093 41/ 9., Apr., 2004.
8. Rokade R.P.,Mohan S.J.,Raghunathan M.D. and Prasad Rao N., "Experimental Investigations on CF Lipped Channel X – Bracing Panel ",SERC Research Report No.MLP 09341/10, Sep. 2004.
9. Harikrishna, P., Gomathinayagam, S., Annadurai, A., and Lakshmanan, N., "Bi-modal spectral approach for wind induced fatigue of slender structures", SERC Research Report No. MLP 09841 / R-08, January 2004.
10. Annadurai, A., Gomathinayagam, S., Hairkrishna, P. and Lakshmanan, N., "Evaluation of inservice wind induced fatigue loads owing to traffic sign boards", SERC Report No. MLP 09841 / R-09, March 2004.
11. Gomathinayagam, S., Lakshmanan, N., Harikrishna, P., Annadurai, A., "Analytical Prediction of fluctuating stresses based on limited point measured wind and strain data for wind-induced fatigue", SERC Research Report No. MLP 09841 / R-10, April 2004.
12. Harikrishna, P., Gomathinayagam, S., Annadurai, A., and Lakshmanan, N., "Dynamic strain measurements on a guyed wind turbine mast" SERC Research Report No. MLP 09841 / R-11, September 2004.

13. Gomathinayagam, S., Lakshmanan, N., Harikrishna, P. and Abraham, A., "Directional fluctuation and its implication on field measurement of dynamic wind loads", SERC Research Report No. MLP 09841 /R-12, January 2005.
14. Harikrishna, P., Gomathinayagam, S., Lakshmanan, N. and Abraham, A., "Formulation of a practical design approach to evaluate wind induced fatigue of slender structures", SERC Research Report No. MLP 09841 /R-13, January 2005.
15. Abraham, A., Harikrishna, P., Gomathinayagam, S. and Lakshmanan, N., "Evaluation of force coefficients using measured dynamic wind loads on a 2-D frame on the roof of a building", SERC Research Report No. MLP 09841/R-14, February 2005.
16. Gomathinayagam, S., Harikrishna, P., Abraham, A., and Lakshmanan, N., "Effects of after-body on 2-D frame and solidity on 3-D frame in dynamic wind load measurements", SERC Research Report No. MLP 09841 /R-15, March 2005.
17. Gomathinayagam, S. and Lakshmanan, N., "Aerodynamic admittance function for latticed frame – an evolution through field measurements", SERC Research Report No. MLP 09841 /R-16, March 2005.
18. Lakshmanan, N., Arunachalam, S., Selvi Rajan, Ramesh Babu, G., and Panneer Selvam, R., "Flow visualisation studies on models of prismatic tall buildings using wind tunnel", SERC Research Report No. OLP 10541-RR-4, September 2004.
19. Santhoshkumar, M., Selvi Rajan., S., Lakshmanan, N., Arunachalam, S., and Paramasivam, K., "Computational Fluid Dynamics analysis and wind tunnel experiment on a typical launch vehicle model", SERC Research Report No. OLP 10541-RR-5, January 2005.
20. Selvi Rajan, S., Arunachalam, S., Lakshmanan, N., Ramesh Babu, G., and Panneer Selvam, R., "Modelling the dispersion of gases when released from a source and optimising the height of the chimney"., SERC Research Report No. OLP 10541-RR-6, February 2005.
21. Selvi Rajan, S., Arunachalam, S., Lakshmanan, N., Ramesh Babu, G., and Panneer Selvam, R., "Completion Report on wind tunnel investigations on dispersion of atmospheric pollutants", SERC Research Report No. OLP 10541-RR-7, March 2005.
22. Lakshmanan, N., Selvi Rajan, S., Arunachalam, S., Ramesh Babu, G., and Panneer Selvam, R., "A New Pressure Calibrator Model for Pressure Measurement Studies in Wind Tunnel" , SERC Research Report, MLP 09741, RR-7, April 2004.
23. Lakshmanan, N., Arunachalam, S., Selvi Rajan, S., Ramesh Babu, G., and Panneer Selvam, R., "Wind tunnel studies on dynamic pressures on a tall rectangular building model (side ratio 1:2), Research Report, RR No.8, MLP 09741, September 2004
24. Lakshmanan, N., Arunachlam, S., Selvi Rajan, S., Ramesh Babu, G., and Panneer Selvam, R., "Experimental methods for evaluating flutter derivatives of a bridge

- deck model – A critical review”, Research Report, RR No.9, MLP 09741, September 2004.
